Message from Property Manager:

Brad Wiggins (208) 971-5055

After reviewing the 2020 budget I've identified areas where I can save money for the HOA. This savings will allow me to do more projects than planned and use subcontractor's for jobs I'm unable to do myself.

Spring Focus:

- Tree trimming and removal
- Sidewalk/Path repairs due to root damage
- Check into cleaning out drainpipes between ponds
- Landscaping (entrances, islands and clock tower garden)

If you see something needing attention please contact me.

Minutes for the Annual HOA meeting in January have been posted to the website.

As requested at the January HOA meeting, a user guide for the website will be available for those needing it, at Property Manager's office April 1.

The next HOA meeting was scheduled for April but due to the current Coronavirus concerns the meeting has been postponed until further notice. The HOA Board continues to work on alternatives for the Tennis Court and will be prepared to discuss at the next HOA meeting.
